- Paper clip trap

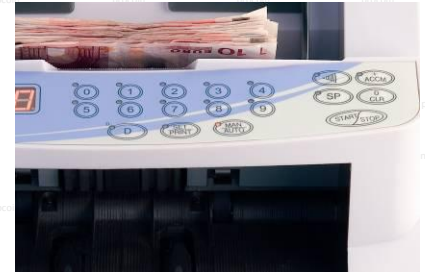

PRC 952 - Strong Features

The **archD** sensor board integrates the sensors on a curved holder which is moulded around the curved note path. This enables the features on the banknotes being counted to be present under the sensor for a longer period of time – enhancing detection efficiency

EasyClean Access in the PRC 952 allows instant access to the paper transport of the machine to enable easy sensor cleaning or removal of foreign objects, paper clips, coins etc.

The **ergonomic Keypad** gives a good overview over the functions and is easy to clean.

The **GRIP** and **mecha** banknote feeder and transport mechanism utilized in the series PRC 950 ensure a reliable and accurate count.

Only **high quality material** with excellent finish ensures high precision and long durability.

The **Paper Clip-Trap** prevents metallic foreign objects (coins, paper clips etc) from entering the sensor area.

Option: the **external display** allows a customer to also see the piece count total. This 2nd display unit is also easy to read by surveillance camera systems. Detection / counterfeit messages are shown in a coded way due to privacy reasons.

PRC 952 Facts on one page

Description

The PRC 952 is a very fast, single denomination piece counter with height, UV and MG detection. All notes being counted must have the same height as the first note counted. The UV detection checks the banknote paper substrate. The 4 MG heads check for the magnetic properties of the banknote inks or threads. The PRC 952 utilises the most modern GRIP and mechA banknote feeder and transport mechanism, which ensure a reliable and accurate count.

Detection

DD (Height)	✓
UV	✓
MG	✓

Capacity & Speed

Capacity Hopper	500 notes
Capacity stacker	200 notes
Counting speed	800 / 1200 / 1500 notes per min.

Additional features

Paper clip trap
EasyClean Access
Self-check-function
Many selectable power-on settings

General data

Batch Display	3 digits
Count Display	4 digits
Feed System	Grip, MechA
Double detect	By denomination
Density setting	5 levels (2 standard, 2 special, 1 Auto)
Batching:	Variable 1 :999 / preset
Document size	100.00x50.00 : 195.00 x 100.00
Alarm type	Visual and acoustic
Alarm system	Double, chain, halfnote, skew note

Technical data

Dimensions (W x L x H)	280 x 230 x 255 mm
Weight	5,5 kg
Power consumption	70 W
Power supply	100-240 V, 50/60 Hz
Ambient Temperature	+5°C - 40°C

Interfaces

RS232 PC-connection (cable included)	Over RJ45
External Display	Over RJ45

Options

External Display incl. cable	8 digits
