

## **E385/E770 Economy Changer**

*Now Equipped with Coinco Mag50 Bill Acceptor!*

The E385 and E770 Economy Changers are designed to provide reliability at lower cost --- without sacrificing quality. The E385 is a single hopper model with a quarter capacity of \$385.00 It also has the ability to dispense dimes or nickels.

The E770 is a two hopper version utilizing the same cabinet and having the same features as the E385... but with twice the capacity. This version has the ability to dispense quarters, dimes and nickels in various combinations (*You must specify the desired payout combination when ordering*).

***Both models accept \$1, \$5, \$10 and \$20 bills.***

Since each model utilizes the same cabinet, you can purchase the model E385 and upgrade later to the E770 (by adding a second hopper) when additional capacity is needed. For those concerned about cabinet security, the E385 and E770 are housed in a sturdy 14 gauge steel cabinet. The three point locking system utilizes a recessed T-handle style lock.

Adding to the flexibility of this model for the vending industry, adapter harnesses are available to permit the use of bill acceptors made by other manufacturers.

### **Dimensions:**

22 3/8" H x 12" W x 15 1/4" D

### **Weight:**
