CashComplete™

RCS-500 & RCS-600

The Complete Recycling Solution

Reduce Working Capital By 65%

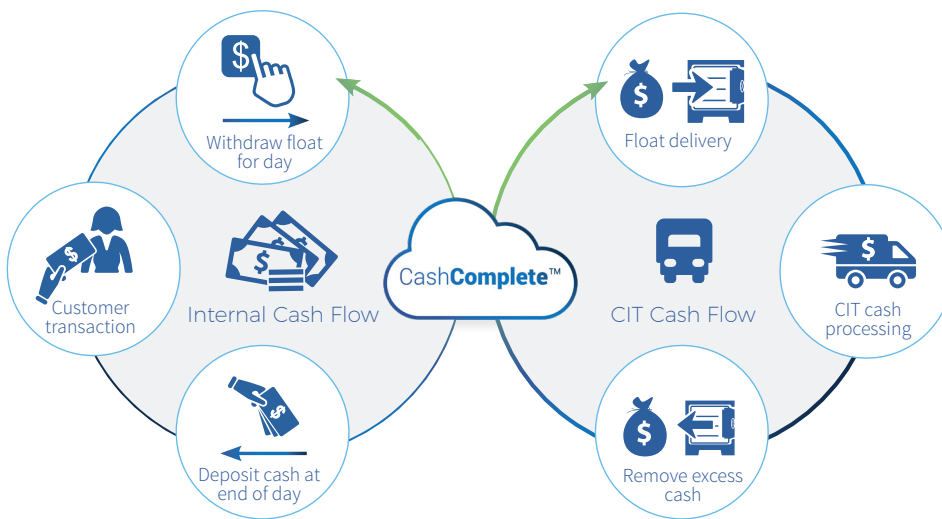

Optimize your cash on hand by utilizing CashComplete™ recycling solutions

Transform Your Cash Handling

The CashComplete™ RCS-500 & RCS-600 transform your cash handling into smart cash management, improving your business at all levels. Paired with our unique suite of software the RCS-500 & RCS-600 are a strong back office solution for any market.

Turn Cash Into Real Value

The RCS-500 is a powerful automator for your back office operations. Make this smart solution part of your daily operations and decision making, instead of spending hours on administration and counting. This ensures a quick return on investment through dramatically improved cash management.

Efficiently Cycle Cash All Through Your Business

The steady flow of cash into your back office needs to be counted, allocated and secured quickly and efficiently. With the RCS-500 & RCS-600, you take control of your cash through an efficient cash cycle in all areas of your business, from internal cash handling to CIT operations. This ensures both time and cost savings, as well as an improved customer service.

Superior Financial and Operational Control

CashComplete™ software is the ultimate solution for superior financial and operational control of your cash. CashComplete™ management software allows access to data by local departments and from remote locations. CashComplete™ enterprise software can be used for central monitoring and connects with external store systems for even higher efficiency.

CashComplete™ provides a common experience across all client locations. Our software solutions are scalable, allowing you to gain full control of your cash management operations.
