

# CashComplete™

## SDS-750

High-Speed Heat-Sealing Bag Deposit Solution

Complete Cash Automation

Makes cash handling an easy process every day - all year round

# The Benefits of the SDS-750

The SDS-750 series is a high-speed note deposit solution for both back office and front office environments. The Smart Deposit cuts the costs of cash handling through internal optimization as well as CIT pick-ups and deliveries. It is a secure, smart and high performing note deposit unit.

## Automatic Counting

The notes are automatically counted and compiled in seconds. Information of deposits and total sum of each denomination is generated in real-time.

## High Speed Processing

The SDS-750 is one of a kind through its high speed of up to 1,000 notes per minute.

6-15  
Months  
The quickest  
pay-back in  
cash management!

## Web-Based Cash Management

Reports are sent to the financial department as well as to the CIT company or bank at the end of the day. Reconciliation has never been easier.

## Bundle Note Deposits

Bundle note deposits of up to 200 notes at a time, make the cash handling process extremely easy and efficient.

Thanks to its competitiveness and strong capacity, the SDS-750 is the perfect solution for smaller retailers, hotels, gambling halls, amusement parks, gas stations, chemist's shops, cinemas and public transport companies

## Full Control Through Serial Number Recognition

Through serial number recognition you will always get exact information about each note, such as time of deposit and who deposited it.

## Heat Seal Bag

Secure seal of bank notes inside the safe, controlled by a PC. The staff has no access to the bank notes until the bag is opened at the CIT company. The bag is identified with a bar code, giving you full control and security.

## High Security

A Smart Deposit Solution increases the security of your employees. The solution is certified by the insurance companies.\*

## Efficient CIT Processes

Through an on-line connection, the CIT company receives information when your machine is full and needs to be emptied.

## Small Footprint

Since the solution packs the bank notes, it can handle large volumes in a small area. It has a small footprint and can be placed even in the smallest environments.

Compatible with  
CashComplete™ Connect  
monitoring software

\*Applies to the customer's insurance.
