ProNote 1.5

Banknote Counter with reject pocket

Pronote 1.5 is a **banknote counter and sorter** with outstanding technology. It provides maximum comfort and reliable banknote counting and verification. Counterfeit bank notes are placed in the reject compartment during the counting process – which provides additional security and non-stop counting. Best prepared for all Euro 2 banknotes through easy, fast updates. The ProNote 1.5 meets current requirements with a small footprint – **it is the most compact machine in its class of device. Exclusive Feature: easy to understand operation via Jog-Dial knob and programmable user interface.**
